

# Total Program Solution

## Program Research

- ✓ Define system requirements and scope of work
- ✓ Submit request for quotes
- ✓ Provide pricing and recommendations

## Program Management

- ✓ Manage all program vendors
- ✓ Reduce program schedule and risk with program metrics
- ✓ Manage and provide complete installation kit

## Integration Engineering

- ✓ Increase system maintainability through design reviews and experienced airline personnel
- ✓ Use of the best design practices in order to provide most efficient and safest system installation

## Certification Management

- ✓ Manage the certification hurdles by using experienced DERs
- ✓ Close working relationship with local ACO

## Installation Support

- ✓ Onsite engineering and DERs to manage system installation and testing
- ✓ Licensed A&P mechanics available to assist installation

## Ongoing Support

- ✓ Continued support of systems once aircraft returns to revenue service
- ✓ Ongoing management to ensure customer satisfaction
